# FEIAP 32nd General Assembly and 7th Convention

May 1-3, 2024, Taipei, Taiwan Organized by Chinese Institute of Engineers

#### Announcement and Call for Papers

#### **About FEIAP**

The Federation of Engineering Institutions of Asia and the Pacific (FEIAP) is an international non-profit organization founded in 1978. It aims to promote the application of technical progress to economic and social advancement, advance engineering as a profession, and foster peace. FEIAP is an international member of WFEO and has 23 member economies.

# Convention Theme: Engineering Resilience and Education for a Net-Zero Future

The convention theme "Engineering Resilience and Education for a Net-Zero Future" highlights the importance of engineering and education in building a more sustainable and resilient future. The convention will bring together professionals, researchers, educators, and advocates from various disciplines to explore and discuss ways to apply resilient engineering practices and advance sustainable education to contribute to a net-zero future. The focus will be on sharing innovative engineering solutions, discussing challenges and opportunities in achieving sustainability goals, and identifying strategies for effective environmental education and awareness campaigns. The overarching goal is to work towards a future where humanity can thrive while minimizing its impact on the planet's resources and ecosystems.
